3.3 WATER & WASTEWATER SYSTEM BACKGROUND INFORMATION

The water and wastewater systems presently serves an aggregate of approximately 59,000 water and 45,000 wastewater customers. The County is located along the North Carolina/South Carolina state line southeast of the City of Charlotte and Mecklenburg County. Water and wastewater service needs are increasing in the County, in large part due to its proximity to the City of Charlotte. Continued growth drives the need to analyze, plan, design and construct improvements to the water distribution, booster pumping, and storage facilities as well as the wastewater collection, pumping, and conveyance systems. The Master Plan and CIP identify projects within the water distribution and wastewater collection systems that must be implemented to meet present and future demands.

The County's water distribution system provides service to a significant portion of the County, including all major urbanized areas with the exception of the City of Monroe. Water service is provided to the communities of Indian Trail, Stallings, Waxhaw, Wingate, Weddington, Wesley Chapel, Fairview, Hemby Bridge and large areas of low-density land use in unincorporated Union County. The water distribution system includes approximately 5,840 hydrants, 20.5 million gallons (MG) of storage, 6 booster pump stations, and 1,230 miles of piping.

Water is supplied to the distribution system by the Catawba River Water Treatment Plant and the Yadkin River Water Treatment Plant. The Catawba River Water Treatment Plant is jointly owned by Union County and Lancaster County Water & Sewer District and has a current treatment capacity of 40 million gallons per day (MGD). The Yadkin River Water Treatment Plant has a current treatment capacity of 12 MGD.

Union County's wastewater system currently serves over 45,000 customers. The collection system piping is comprised of both gravity sewer and force mains with pipe diameters ranging from 4 inches to 48 inches. Union County's wastewater collection and treatment system currently includes approximately 19,600 manholes, 720 miles of gravity sewer pipe, 75 miles of sewer force main, 60 wastewater lift stations, and 5 wastewater treatment facilities. The wastewater treatment facilities range in size from .05 MGD to 7.5 MGD. The County also has 2.65 MGD and 3.0 MGD of contracted capacity in the City of Monroe's wastewater treatment plant and Charlotte Water's McAlpine Creek Wastewater Management Facility, respectively. The County is currently expanding its largest wastewater treatment facility, the Twelve Mile Water Reclamation Facility, from 7.5 MGD

to 9 MGD with construction scheduled to be complete in 2027. Additionally, the County is currently planning rehab and renewal projects at the 1.9 MGD Crooked Creek Water Reclamation Facility, and the Grassy Branch Water Reclamation Facility was recently expanded to 0.120 MGD.

3.4 NOTICE OF FEDERAL FUNDING

Union County may utilize federal and/or state funding, in whole or in part, for the cost of any services resulting from this solicitation. In using these funds, the County must comply with all regulations and requirements issued by the federal and/or state entity governing the expenditure of these funds.

The County must comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 C.F.R. Part 200 for services being paid for by federal funds.

Pursuant to 2 C.F.R. § 200.327, for services being paid for by federal funds, the County must include within the contract applicable provisions described in Appendix II to 2 C.F.R. Part 200 and all other applicable laws. Therefore, the County cannot enter into a contract or make any distributions to Respondent using monies from federal funding sources absent agreement and adherence to each term and condition contained therein.

Respondent acknowledges that other terms and conditions may be incorporated into individual Task Orders executed under this contract to comply with requirements of specific federal and/or state funding sources.

MULTIPLE PROJECT AGREEMENT

BETWEEN

UNION COUNTY, NORTH CAROLINA

AND

[ENGINEERING FIRM]

FOR

PROFESSIONAL ENGINEERING SERVICES

DATE: _____

AGREEMENT
BETWEEN
UNION COUNTY, NORTH CAROLINA
AND
[ENGINEERING FIRM]
FOR
PROFESSIONAL ENGINEERING SERVICES

THIS IS AN AGREEMENT made as of _____, between Union County, North Carolina, with principal offices at 500 N. Main St., Monroe, North Carolina, 28112, hereinafter referred to as “OWNER” and [Engineering Firm], with offices at [Address], hereinafter referred to as “ENGINEER.”

OWNER desires to retain ENGINEER, a professional engineering firm, to provide engineering services on one or more projects in which the OWNER is involved; and

ENGINEER desires to provide such services on such projects as may be agreed, from time to time, by the parties.

OWNER and ENGINEER, in consideration of their mutual covenants, herein agree in respect of the performance of professional services by ENGINEER and the payment for those services by OWNER as set forth below.

SECTION 1 - PROJECT TASK ORDER

1.1 This Agreement shall apply to as many projects as OWNER and ENGINEER agree will be performed under the terms and conditions of this Agreement. Each project ENGINEER performs for OWNER hereunder shall be designated by a “Task Order.” A sample Task Order is attached to this Agreement and marked as Exhibit “A”. No Task Order shall be binding or enforceable unless and until it has been properly executed by both OWNER and ENGINEER. Each properly executed Task Order shall become a separate supplemental agreement to this Agreement. Notwithstanding anything herein to the contrary, this Agreement does not require OWNER to purchase any minimum amount of professional services, and a decision by OWNER to not make any purchase hereunder will violate neither this Agreement nor any implied duty of good faith and fair dealing. OWNER has no financial obligation under this Agreement absent OWNER’s execution of a valid and binding Task Order.

1.2 In resolving potential conflicts between this Agreement and the Task Order pertaining to a specific project, the terms of the Task Order shall control.

1.3 ENGINEER represents and agrees that it is qualified and fully capable to perform and provide the professional engineering services and other services required or necessary under this Agreement in a fully competent and professional manner, and that any consultants ENGINEER

engages (“Consultants”) are also fully capable and qualified to perform and provide the services that they will provide hereunder.

1.4 In performing services pursuant to this Agreement and any Task Order, ENGINEER shall comply with all applicable laws, rules, regulations, ordinances, codes, standards, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction. ENGINEER shall also exercise reasonable care and diligence in performing its services under this Agreement in accordance with generally accepted standards for engineering practice in the region which is the situs of the project or task subject to the Task Order (“Standard of Care”).

1.5 ENGINEER shall be responsible for all errors or omissions in the drawings, specifications, and other documents prepared by ENGINEER. It shall be the responsibility of ENGINEER throughout the period of performance under this Agreement, including any Task Order, to use reasonable professional care and judgment to guard OWNER against defects and deficiencies in any work.

1.6 ENGINEER shall correct at no additional cost to OWNER any and all errors, omissions, discrepancies, ambiguities, mistakes, or conflicts in the drawings, specifications, and other documents prepared by ENGINEER.

1.7 Time is of the essence in this Agreement. ENGINEER shall perform all services in a timely manner in accordance with any schedules set forth herein, including any Task Order. ENGINEER shall ensure all necessary or appropriate applications for approvals are submitted to federal, state, and local governments or agencies in a timely manner so as not to delay design or any other activities of a PROJECT.

1.8 Any of ENGINEER’s key personnel, along with its Consultants and their key personnel, may be listed in a Task Order. No changes to ENGINEER’s key personnel or its Consultants and their key personnel shall be permitted without the written consent of OWNER, which consent shall not be unreasonably withheld.

SECTION 2 - BASIC SERVICES

ENGINEER shall provide OWNER with all engineering and related services required to satisfactorily complete all phases and requirements of a Task Order within the time limitation set forth therein in accordance with the Standard of Care. ENGINEER’s basic services and responsibilities (“Basic Services”) for each Task Order are defined in the Appendix, Exhibit A, “Scope of Services”, which is part of this Agreement as if fully set forth herein. A detailed Scope of Services for each Task Order, or for Additional Services, will be developed at the direction of OWNER and will formally become a part of this Agreement through a Task Order executed by both parties, which Task Order shall include payment provisions and provisions for time of completion by ENGINEER.

2.1 General.

2.1.1 ENGINEER's Basic Services and responsibilities to OWNER are as defined in the Task Order applicable to each project. These services may include providing professional engineering consultation and advice and furnishing (civil, structural, mechanical, electrical, process, chemical, solid waste and recovery) engineering design services and/or construction administration services and related architectural/engineering services incidental thereto.

SECTION 3 - ADDITIONAL SERVICES

3.1 General

Additional Services ("Additional Services") are not included in the Basic Services; and shall be provided if authorized by Task Order; and shall be paid for by OWNER as provided in this Agreement, in addition to compensation for Basic Services.

SECTION 4 - OWNER'S RESPONSIBILITIES

OWNER shall perform the following:

4.1 Designate in writing a person to act as OWNER's representative with respect to services to be rendered under this Agreement. Such person shall have complete authority to transmit instructions, receive information, interpret OWNER's policies and make decisions with respect to ENGINEER's services for the PROJECT, except those decisions which require approval by the County Manager or Board of Commissioners.

4.2 Provide to ENGINEER any data, plans, reports, and other information in possession of, and reasonably accessible by, OWNER which are relevant to the execution of ENGINEER's duties on the PROJECT; provide all criteria and full information as to OWNER's requirements for the PROJECT, including design criteria, objectives and constraints, space, capacity and performance requirements, flexibility and expendability, and any budgetary limitations.

4.3 After receiving notice from ENGINEER, furnish, if necessary, services of soils/geotechnical engineers, archeological professionals or other consultants. These services may include, without limitation, borings, probings and subsurface explorations, hydrographic surveys, laboratory tests and inspections of samples, materials and equipment, with reports and appropriate professional recommendations.

4.4 Provide land surveys to include property, boundary, easement, right-of-way, utility surveys, property descriptions, zoning, deed or other land use restrictions.

4.5 Arrange for access to, and make all provisions for ENGINEER and its Consultants to enter upon public and private property as required by ENGINEER and its Consultants, to perform services under this Agreement.

4.6 Review all studies, reports, sketches, Drawings, Specifications, proposals and other documents presented by ENGINEER.

4.7 Provide, if necessary, environmental assessments, or environmental impact statements related to the PROJECT; furnish approvals and permits from all governmental authorities having jurisdiction over the PROJECT and approvals and consents from others as may be necessary for completion of the PROJECT, except those approvals, permits and consents to be provided by ENGINEER pursuant to this Agreement.

4.8 Provide accounting and insurance counseling services as necessary for OWNER regarding the PROJECT, and auditing services as OWNER may require to ascertain how or for what purpose any contractor has used the monies paid under the construction contract.

4.9 Advertise for proposals from bidders, open the proposals at an appointed time and place, and pay for all costs incidental thereto.

4.10 Give prompt notice to ENGINEER whenever OWNER observes or otherwise becomes aware of any condition that affects the scope or timing of ENGINEER's services, or any defect or nonconformity in the Work of any contractor.

4.11 Render approvals and decisions as is necessary for the orderly progress of ENGINEER's services. ENGINEER shall be entitled to rely upon the accuracy and completeness of all information and services provided by OWNER or at OWNER's direction, unless ENGINEER knows or in the exercise of reasonable professional skill and care should or would have reason to know that information and services provided by OWNER were inaccurate or not completely accurate.

SECTION 5 - PERIODS OF SERVICE

5.1 The provisions of this Section 5 and the various rates of compensation for ENGINEER's services provided for elsewhere in this Agreement have been agreed to in anticipation of the orderly and continuous progress of the PROJECT through completion of the Services contained herein. ENGINEER's obligation to render services hereunder will extend for a period which may reasonably be required for the performance of ENGINEER's services and required extensions thereto. If specific periods of time for rendering services are set forth or specific dates by which services are to be completed are provided, and if such dates are exceeded through no fault of ENGINEER, all rates, measures and amounts of compensation provided herein may be subject to equitable adjustment.

5.2 The services required for the various phases shall be performed within the time stipulated and mutually agreed in the Task Order for which services are authorized.

5.3 ENGINEER's services shall be considered complete at the earlier of (1) the date when the submissions for that phase have been accepted by OWNER; or (2) thirty (30) days after the date when such submissions are delivered to OWNER for final acceptance, provided no dispute exists as to the quality of ENGINEER's submissions.

5.4 If OWNER requests significant modifications or changes in the general scope, extent or character of the PROJECT, the time of performance of ENGINEER's services and the various rates of compensation may be adjusted equitably.

SECTION 6 - PAYMENTS TO ENGINEER

6.1 Methods of Payment for Services and Expenses of ENGINEER

6.1.1 Payroll Cost shall mean the salary and wages at the time services are performed of all personnel engaged directly on the PROJECT, including, but not limited to, engineers, architects, scientists, surveyors, designers, draftsmen, specification writers, estimators, other technical and business personnel; plus the cost of customary and statutory benefits including, but not limited to, social security contributions, unemployment; excise and payroll taxes, workers' compensation, health and retirement benefits, sick leave, vacation, holiday pay, and other benefits.

6.3 Intervals of Payments

6.3.1 Payments to ENGINEER for Basic Services, Additional Services rendered, and Reimbursable Expenses shall be made once every month by OWNER. ENGINEER's invoices will be submitted once every month and will be based upon total services completed at the time of billing. OWNER shall make prompt payments in response to ENGINEER's invoices.

6.4.2 If during any authorized phase the PROJECT is suspended or abandoned in whole or in part for more than ninety (90) days through no fault of ENGINEER, ENGINEER shall be compensated for all services performed prior to receipt of written notice from OWNER of such suspension or abandonment, together with any Reimbursable Expenses then due. If the PROJECT is resumed after being suspended for more than ninety (90) days, ENGINEER's compensation may be equitably adjusted.

OWNER shall promptly notify ENGINEER of dispute and request clarification and/or remedial action. After any dispute has been settled, ENGINEER shall include the disputed item on a subsequent regularly scheduled invoice or on a special invoice for the disputed item only.

6.4.5 Accounting records of ENGINEER's compensation for Additional Services and Reimbursable Expenses pertaining to the PROJECT shall be maintained by ENGINEER and its

Consultants and subcontractors in accordance with generally accepted accounting practices and shall be available for inspection by OWNER or OWNER's representatives at mutually convenient times for a period of three (3) years after completion of the PROJECT.

SECTION 7 - GENERAL CONSIDERATIONS

7.1 Termination

7.1.1 If, through any cause within ENGINEER's reasonable control, ENGINEER fails to fulfill in a timely and proper manner its obligations under this Agreement, or if ENGINEER violates any of the covenants, agreements, terms or conditions of this Agreement, OWNER shall thereupon have the right to terminate this Agreement, or any individual Task Order, by giving ten (10) days written notice to ENGINEER of such termination and specifying the date when termination shall be effective. If ENGINEER cures the defaults set forth in the notice, then it shall be obligated to continue to perform under this Agreement.

Notwithstanding the above, ENGINEER shall not be relieved of liability to OWNER for damages sustained by it by virtue of any breach of the Agreement by ENGINEER. OWNER may withhold payments to ENGINEER for the purpose of settlement until such time as the exact amount of damages due OWNER from ENGINEER is determined.

7.1.2 If, through any cause within OWNER's reasonable control, OWNER fails to fulfill in a timely and proper manner its obligations under this Agreement, or if OWNER violates any of the covenants, agreements, terms or conditions of this Agreement, ENGINEER shall thereupon have the right to terminate this Agreement by giving ten (10) days written notice to OWNER of such termination and specifying the date when termination shall be effective. If OWNER cures the defaults set forth in the notice, then ENGINEER shall be obligated to continue to perform under this Agreement.

7.1.3 OWNER may terminate this Agreement, or any individual Task Order, without cause, at any time upon provision of not less than five (5) days' written notice from it to ENGINEER. If the Agreement is terminated by OWNER as provided herein, ENGINEER shall be paid for Basic Services and Additional Services actually performed, less any payments previously made.

7.1.4 Upon termination, ENGINEER shall promptly discontinue all services under this Agreement unless the termination notice from OWNER directs otherwise.

7.2 Reuse of Documents

7.2.1 ENGINEER hereby assigns to OWNER, without reservation, all copyrights in all PROJECT-related documents, models, photographs, and other expression created by ENGINEER as required deliverables pursuant to this Agreement. Among those documents are certain "Instruments of Service," including any design drawings and construction documents. OWNER's obligation to pay ENGINEER is expressly conditioned upon ENGINEER's obtaining a valid written comprehensive assignment of copyrights from its Consultants (and subcontractors if applicable) and in terms identical to those that obligate ENGINEER to OWNER as expressed

in this Subsection, which copyrights ENGINEER, in turn, hereby assigns to OWNER. OWNER in return hereby grants ENGINEER and its Consultants (and subcontractors if applicable) a non-revocable, non-exclusive license to reproduce the documents for purposes relating directly to ENGINEER's performance of its obligations under this Agreement, use in ENGINEER's professional activities for ENGINEER's archival records, and for ENGINEER's reproduction of drawings and photographs in ENGINEER's marketing materials. Notwithstanding the above, ENGINEER shall retain ownership of its intellectual property or copyrighted material which was developed, acquired, or owned prior to the execution of this Agreement. This may include tools, programs, templates, dashboards, models, scripts, software, or other systems previously created by ENGINEER.

7.2.2 To the extent that liability arises from misuse of the Instruments of Service or reuse of the Instruments of Service on a project other than the PROJECT contemplated herein by OWNER or another engineer or design professional, ENGINEER shall not be responsible for that misuse or reuse of the Instruments of Service on a project other than the PROJECT contemplated herein.

7.3 Confidentiality

ENGINEER shall maintain the confidentiality of information specifically designated as confidential by OWNER, unless withholding such information would violate the law, create the risk of significant harm to the public, or prevent ENGINEER from establishing a claim or defense in an adjudicatory proceeding. ENGINEER understands and agrees that in addition to any other information designated as confidential by OWNER, the detailed plans and drawings of public buildings and infrastructure facilities, pursuant to G.S. 132-1.7, are not considered public record and ENGINEER shall keep such information confidential. ENGINEER shall require of its Consultants and subcontractors similar agreements to maintain the confidentiality of information required to remain confidential by this Agreement.

7.5 Controlling Law

7.5.1 This Agreement shall be construed and enforced in accordance with the laws of the State of North Carolina. The parties to this agreement confer exclusive jurisdiction of all disputes arising hereunder upon the General Courts of Justice of Union County, North Carolina.

7.5.2 By its signature on this Agreement, ENGINEER represents and warrants that it is licensed and authorized to do business in the state of North Carolina and shall obtain all necessary licenses and permits required to perform the services set forth in this Agreement.

7.6 Successors and Assigns

7.6.1 OWNER and ENGINEER hereby bind their respective partners, successors, executors, administrators, legal representatives and, to the extent permitted by paragraph 7.6.2. below, their assigns, to the terms, conditions and covenants of this Agreement.

7.6.2 Neither OWNER nor ENGINEER shall assign, sublet or transfer any rights under or interest in this Agreement (including, but without limitation, monies that may become due or monies that are due) without the written consent of the other, except to the extent that any assignment, subletting or transfer is mandated by law or the effect of this limitation may be restricted by law.

7.6.3 Unless specifically stated to the contrary in any written consent to an assignment, no assignment shall release or discharge the assignor from any duty or responsibility under this Agreement. Nothing contained in this paragraph shall prevent ENGINEER from employing such independent professional associates, Consultants, and subcontractors as ENGINEER may deem appropriate to assist in the performance of services under this Agreement; however, the cost of any such professionals shall be passed through to OWNER without any surcharge, finder's fee or other added charge imposed by ENGINEER.

7.6.4 Except as may be expressly stated otherwise in this Agreement, nothing under this Agreement shall be construed to give any rights or benefits in this Agreement to anyone other than OWNER and ENGINEER, and all duties and responsibilities undertaken pursuant to this Agreement shall be for the sole and exclusive benefit of OWNER and ENGINEER and not for the benefit of any other party.

7.7 Equal Employment and Nondiscrimination

In connection with the services under this Agreement, ENGINEER agrees to comply with the applicable provisions of state and federal equal opportunity statutes and regulations.

7.8 Indemnification

ENGINEER agrees to protect, indemnify, and hold OWNER, its officers, employees and agents free and harmless from and against any and all losses, penalties, damages, settlements, costs, charges, professional fees or other expenses or liabilities of every kind and character arising out of or relating to any and all claims, liens, demands, obligations, actions, proceedings, or causes of action of every kind in connection with or arising out of this agreement and/or the performance hereof that are proximately caused by the negligence or intentional misconduct of ENGINEER, its officers, employees, subcontractors or agents, except to the extent the same are caused by the negligence or willful misconduct of OWNER.

7.9 Changes and Modifications

OWNER and ENGINEER agree that no change or modification to this Agreement, or any attachments hereto, shall have any force or effect unless the change is reduced to writing, dated, and made a part of this Agreement. The execution of the change shall be authorized and signed in the same manner as this Agreement.

7.10 Severability and Waiver

In the event any provision of this Agreement shall be held invalid and unenforceable, the remaining provisions shall be valid and binding upon OWNER and ENGINEER. One or more waivers by either of any provision, term, condition or covenant shall not be construed by the non-waiving party as a waiver of a subsequent breach of the same provision by the waiving party.

7.11 Extent of Agreement

7.11.1 This Agreement, including all exhibits, and any and all amendments, modifications, and supplements duly executed by OWNER and ENGINEER in accordance with this Agreement, shall govern and supersede any and all inconsistent or contradictory terms, prior oral or written representations or understandings, conditions or provisions set forth in any purchase orders, requisitions, requests for proposals, authorizations of services, notices to proceed or other forms or documents issued by OWNER with respect to the PROJECT or ENGINEER's services. This Agreement shall constitute the entire understanding and agreement of OWNER and ENGINEER with respect to ENGINEER's services on the PROJECT.

7.11.2 ENGINEER and OWNER shall execute and deliver such further instruments as may reasonably be requested by the other with respect to completion of the transaction contemplated by this Agreement. None of the instruments shall contain undertakings or representations not set forth in the Agreement or inconsistent herewith.

Any services and/or work performed, prior to execution of this Agreement, by ENGINEER for OWNER in connection with the PROJECT shall be covered and governed by this Agreement and deemed rendered pursuant hereto.

7.13 E-Verify.

E-Verify is the federal program operated by the United States Department of Homeland Security and other federal agencies, or any successor or equivalent program, used to verify the work authorization of newly hired employees pursuant to federal law. ENGINEER shall ensure that ENGINEER and any Consultant or subcontractor performing work under this Agreement:

(i) uses E-Verify if required to do so by North Carolina law; and (ii) otherwise complies with the

requirements of Article 2 of Chapter 64 of the North Carolina General Statutes. A breach of this provision by ENGINEER will be considered a breach of this Agreement, which entitles OWNER to terminate this Agreement, without penalty, upon notice to ENGINEER.

7.14 Iran Divestment Act.

Pursuant to Article 6E of Chapter 147 of the North Carolina General Statutes, OWNER must require most entities with which it contracts, which would include ENGINEER under this Agreement, to certify that the entity is not identified on a list created by the State Treasurer pursuant to N.C.G.S. § 147-86.58 (the “Final Divestment List”). This requirement is related to ensuring that entities with which local governments contract are not involved in investment activities in Iran.
