

## Questions for RFP #251-24-166 – Professional Development for Star Math

Reference	Vendor Question	Answers
Scope of Work, page 5	Please clarify what is meant by "Custom Data Integration Level 1 Maintenance/Level 2 Support hours (480 hours) upon award of this bid to June 30, 2024".	Custom Data Integration Level 1 Maintenance provides automated rostering. It allows a district to share rostering data regularly and automatically with other Renaissance products including Schoolzilla/Renaissance Analytics.
Scope of Work, page 5	If our company is capable of providing all services listed in the scope of work except the "Custom Data Integration Level 1 Maintenance/Level 2 Support hours (480 hours) upon award of this bid to June 30, 2024", can we still be considered for the awarded contract?	No, we will need the Custom Data Integration Level 1 Maintenance so that the district can have automatic rostering for STAR and Renaissance Analytics.
