RE: Ford F-550 Trucks - FBR 1827-25

ADDENDUM NO. 1

The purpose of this addendum is to provide answers to questions submitted.

- 1) Question: For the VMAC 150G/hose reel, they do not specifically ask for a filter/lubricator/regulator to be installed between the compressor and the hose reel, but many folks want that added. It isn't necessary, but it helps extend the life of the tools by cleaning and oiling the compressed air.
Answer: Yes we would like the Filter/Lubricator/Regulator.
- 2) Question: For the VMAC 150G/hose reel, the 50' hose reel they give no diameter of the hose. We would normally install a 50' x 1/2" but I need to know if they require something different.
Answer: The air hose should be the 50' x 1/2"

This document and all other documents can be found at www.ashevillenc.gov/bids under this bid number.

Please sign this addendum and include it with your bid package.
