Prequalification workshop

Wake Tech New Health Science Building
and Parking Deck

Project details

The project consists of constructing a three-story simulation hospital connected by two bridges to a neighboring building. It also includes a four-story precast parking deck, featuring new pedestrian pathways, a realigned road with a roundabout, a drop-off loop, and site walls.

Wednesday | December 4, 2024
9:00 - 11:00 A.M.
Wake Tech Pery Health Sciences Campus
Building A - Room 152

The workshop will cover the project details
and the required prequalification process.

[Register here to attend virtually or in-person](#)
