Project Title

Re- Solicitation - Heavy Trucks Collision and Repair Services

Description

The City of Charlotte is looking for qualified Service Providers to work in conjunction with Fleet Management to perform complete turnkey collision repairs and related services (excluding any City applied graphics), on the City's various makes and models of heavy trucks. Service Providers shall pick-up and deliver vehicles, as well as perform all collision repairs at their facilities. Collision repairs may include, but are not restricted to, frame, cooling systems and lines, frame, engine components, transmission, steering, cooling systems, and related parts repairs or replacement. Services shall adhere to
