REQUEST FOR QUALIFICATIONS

**Orange Water and Sewer Authority
Community Room Renovation
CIP Project No. 280-31
Issue Date: July 6, 2026**

Submittal Deadline: August 6, 2026 at 2PM

1. INTRODUCTION

Your firm is hereby invited to submit a written statement of qualifications to provide professional engineering and architectural services for renovations to the existing Community Room, Administrative Breakroom Area, one office conversion and roof repairs in Orange Water and Sewer Authority's main administrative building at 400 Jones Ferry Road in Carrboro. OWASA will conduct a Qualification-Based Selection process to identify the best qualified firm with which to negotiate a contract. All firms submitting qualifications must have demonstrated experience and expertise in design and construction services for public space and office building renovations

To be considered by OWASA, responses to this RFQ must be received by 2:00 p.m. Eastern Time on Thursday, August 6, 2026. Refer to Section 5 – Submittal Requirements for details.

2. OBJECTIVES

The primary objective of the project is to:

- a) Renovate the existing Community Room and adjacent breakroom in the main OWASA Administrative Office for Americans with Disabilities Act (ADA) compliance and necessary security improvements
- b) Convert an existing office into a small conference room for public –staff meetings without entering the secure portions of the building
- c) Address administrative building roof coping issues

3. BACKGROUND AND DESCRIPTION

A conceptual master plan of the administrative office at 400 Jones Ferry Road in Carrboro was completed in 2025. This master plan was completed in two phases: a (1) Needs Assessment and (2) Options. The needs assessment clearly identified security and accessibility as top priorities for future improvements. While several options were thought to be beneficial, priority has been placed on improving the public use of the Community Room and the necessary ADA compliance associated with the use of that room. As part of this priority, renovation of the IT Department Entrance and changes to the adjacent Employee Breakroom area are anticipated.

Currently, if the Community Room is used by the public, they have access into an unsecured

hallway to access restrooms and the rest of the administrative building. Additionally, there is another vestibule between the Community Room and the IT department which does not meet current security goals. Furthermore, the adjacent breakroom to the Community Room is underutilized and does not meet accessibility requirements.

A draft concept plan for the improvements to the community room and the adjacent breakroom are shown here:

Minimum Scheme Ground Floor - Proposed Plan

Area of Work

Ground Floor: 966 SF

The ground floor revisions are expected to include relocation of a door to the community room, renovation of the break room area to create two single-occupancy restrooms accessible from the community room, reconfiguration of the remaining breakroom area, and installation of card access doors to enter the breakroom and IT Department from the Community Room area. First floor revisions may include revisions to doors to meet ADA access requirements and creation of a

dedicated, secure conference room off of the main entry for employees to meet with customers.

In addition to the community room renovations, this project may also address a roof leakage item associated with the Administrative Building roof. A consultant previously completed a leak investigation and identified issues with the coping, metal cleat, and weather proofing at the parapet wall at the perimeter of the roof.

The goal is to have design completed by May 2027 and construction completed May 1, 2028.

4. SCOPE OF SERVICES

The engineering and architectural services required for this project are expected to be completed to meet the objective outlined above and in general accordance with a scope of services as needed to accomplish the tasks listed below. **However, the final scope of services will be negotiated with the selected firm and may include modified and/or additional tasks.**

Performance of work by Consultant outside the originally anticipated level of effort without prior written Owner approval is at the Consultant's sole risk.

3.3 Upon mutual written agreement, the Project Scope of Services may be modified. The Owner and the Consultant may negotiate additional scopes of services, compensation, time of performance and other matters related to the project. All books and records relative to the project shall be available at all reasonable times for examination and audit by Owner and shall be kept for a period of three (3) years after completion of all work pursuant to this Agreement. Incomplete or incorrect entries in such books and records shall be grounds for Owner's disallowance of any fees or expenses based upon such entries.
