1. Below is the information received from the NCDOL concerning “single bottom jacks”.

“NCDOL went through the history of the State units and below is what was found as far back as we could go electronically. Any hydraulic unit installed prior to 1973 very well might have a single bottom jack.”

State number:

- **4046** was installed in 1958 and no alterations have occurred by our records.
- **4414** was installed in 1962 the only repair/alteration we show was a valve replacement in 2014.
- **4413** was installed in 1962 no alterations show in our records.
- **6439** was installed in 1971 alteration was performed but did not include the jack being replaced.
