

CITY OF CHARLOTTE PROCUREMENT PORTAL INSTRUCTIONS

THE FOLLOWING PROJECT IS HOSTED ON THE CITY OF CHARLOTTE'S PROCUREMENT PORTAL

PROJECT #: 269-2026-1974

PROJECT NAME: CATS FUEL TREATING AND CLEANING OF DIESEL STORAGE TANKS

PROJECT LINK: [CATS Fuel Treating and Cleaning of Diesel Storage Tanks](#)

CITY OF CHARLOTTE BONFIRE PORTAL

The City of Charlotte is currently using an electronic solicitation Procurement Portal (<https://charlottenc.bonfirehub.com/opportunities>) to post solicitations, receive vendor submissions, and communicate with vendors interested in participating in solicitations being conducted with the use of this Procurement Portal. Interested Vendors must register through the Procurement Portal to access these solicitations and participate in solicitation activities.

HOW TO REGISTER

All vendors wishing to **view and participate** in solicitations on the Procurement Portal must register here - <https://charlottenc.bonfirehub.com/login>. Once you are registered, you may access solicitations, submit questions, and submit responses to solicitations (e.g. Bids, Proposals, Quotes, etc.)

QUESTIONS

All solicitation questions must be submitted electronically to [CATS Fuel Treating and Cleaning of Diesel Storage Tanks](#) through the **Vendor Discussions** section.

SUBMISSION INSTRUCTIONS

All submissions must be submitted electronically via the Procurement Portal <https://charlottenc.bonfirehub.com/opportunities>, under the respective Project.

Your submission must be uploaded, submitted, and finalized prior to the Project's posted due date. The City strongly recommends allowing sufficient time to complete this process (ideally one or more business days prior to the deadline) to begin the uploading process and to finalize your submission. Uploading large documents may take time, depending on the size of the file(s) and your Internet connection speed.

BROWSERS

The Bonfire portal can be accessed using Microsoft Edge, Google Chrome, or Mozilla Firefox. Javascript must be enabled. Browser cookies must be enabled.
