1.2 Background

The City of Raleigh, the Capital City of North Carolina, remains one of the fastest growing areas in the country. A great economy, top educational institutions, and exceptional healthcare facilities are some of the characteristics that attract people to the triangle area. The mild climate, diverse workforce, and proximity to Research Triangle Park combine to make Raleigh a great place to live.

Raleigh is a 21st Century City of Innovation focusing on environmental, cultural, and economic sustainability. The City conserves and protects our environmental resources through best practices and cutting-edge conservation and stewardship, land use, infrastructure, and building technologies. The City welcomes growth and diversity through policies and programs that will protect and enhance Raleigh's existing neighborhoods, natural amenities, history, and cultural and human resources for future generations. The City leads to improved quality of life for neighborhoods and the standard of living for all citizens. The City works with universities, colleges, citizens, and local partners to promote new technology, create new job opportunities, and encourage local businesses and entrepreneurs. The City enlists and prepares 21st-century staff with the skill sets to carry out the duties of the City through transparent civic engagement and by providing the very best customer service to our citizens.

The City of Raleigh's Information Technology (CoR IT) department installed over 320 linear miles of fiber optic cable in support of its growing WAN (Wide Area Network) interconnecting computer systems at various City facilities. This cable infrastructure was installed in conjunction with and alongside CoR's Traffic Control System infrastructure, but the two cable grids and systems, remain independent. The IT cable

plant is installed about 80% on utility poles, and the remaining traverses a patchwork of underground conduits and utility vaults.

Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or a firm which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the non-Federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts.
