A. Please see the following University responses to all questions received

Question:

1. General Question – What are the expected mesh size and packing details for the Sorbent?

Answer: **Size (US Standard Mesh) - Typical #20 Material % Passing**

16	99+
20	97
30	75
40	50
50	30
70	16
100	6
140	1.5
200	5

Packing details can be found under the **SHIPPING** section within the Sorbent Agreement Specification.

2. General Question - I don't see the chemical sizing requirements of the Sorbent.

Answer: **#20 Dolomite - Typical % by wt.**

CaCO ₃	50-60%
MgCO ₃	30-50%
Inerts	<15%
H ₂ O	<1%
