| 1. | Q. | <b>Upon reviewing the addendum, we noticed that the question related to bi-monthly is noted as twice a month. At our current cleaning intervals for UNCG, any systems that are being cleaned bi-monthly, means every two months or a 60 day service. Given the significant price difference between cleaning every two months versus twice per month, we wanted to reconfirm the intended frequency before submitting pricing. Could you please confirm if the frequency in the addendum is correct as stated, or if it should indeed be every two months?</b> |
|    | A. | We are changing our previous definition of bi-monthly. Instead of twice per month, we are okay with every two months or 60-day service. Thank you for asking for this clarification.   |
