## **Open Discussion**

### **Environmental & Grounds**

Q: Is the duct cleaning part of the mechanical system as well or is it just the duct system?

A: We do clean out the air handler system as well as the duct system.

Q: Is there a mold testing required for clearance by the contractor?

A: WCPSS will do the mold testing not the contractor

Q: Hazmat bid – In the Bid we only put in a line for labor?

A: Yes

Q: Hazmat Bid – Do we add a line for disposal and transportation?

A: Your Bid will only be the labor rate for services provided. Disposal, Transportation materials will bid separately.

Q: Does this Bid include disposal?

A: Labor for services is the only number up for bidding.

Q: Is there a 10% mark up on invoices for materials?

Q: Parts for recycling is pricing all inclusive?

A: All 3 lines are required. Admin sites only schools are not included.

Q: Explain the labor charge or rate and what that is supposed to include.

A: It obviously includes the charge for labor, but it also includes mileage and wear and tear on equipment. We would expect you to have negative air machines (air scrubbers) if you're conducting mold remediation, but instead of charging an equipment rental fee that you might charge other clients, this would be wrapped up in the labor rate. You can charge separately for materials + 10% upcharge. You can also charge separately for disposal costs + 10% upcharge. In addition, if there is a piece of equipment that you need to rent (for example, a lift) to get one of our jobs done, we would expect you to charge us for that as well.
