First, federal procurement standards provided in 2 CFR 200.318 (c)(1),

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any

member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the non-Federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts.

Similarly, the North Carolina General Statutes provides a *criminal* statute for conflicts of interest in public contracting, N.C.G.S. § 14-234(a) states:

(1) No public officer or employee who is involved in making or administering a contract on behalf of a public agency may derive a direct benefit from the contract except as provided in this section, or as otherwise allowed by law. (2) A public officer or employee who will derive a direct benefit from a contract with the public agency he or she serves, but who is not involved in making or administering the contract, shall not attempt to influence any other person who is involved in making or administering the contract. (3) No public officer or employee may solicit or receive any gift, favor, reward, service, or promise of reward, including a promise of future employment, in exchange for recommending, influencing, or attempting to influence the award of a contract by the public agency he or she serves.

City of Raleigh Charter Section 3.9 regulates private transactions between the City and its officials and employees. The Charter states:

No member of the City Council, official, or employee of the City of Raleigh shall be financially interested, or have any personal beneficial interest, either directly or indirectly, as agent, representative, or otherwise, in the purchase of, or contract for, or in furnishing any materials, equipment or supplies to the City of Raleigh, nor shall any official or employee of the City of Raleigh accept or receive, or agree to accept or receive, directly or indirectly, from any person, firm or corporation to whom any contract may be awarded or from whom any materials, equipment or supplies may be purchased by the City of Raleigh, by rebate, gift, or otherwise, any money or anything of value whatsoever, or any promise, obligation or contract for future reward or compensation, for recommending or procuring the uses of any such materials, equipment or supplies by the City of Raleigh; no member of the City Council, official or employee of the City of Raleigh shall for his own personal benefit operate, directly or indirectly, any concession in any building or on any lands of the City of Raleigh, nor shall any official or employee of the City of Raleigh bid for or be awarded any contract granting concessionary rights of any nature or kind from the City of Raleigh; it shall be unlawful for any member of the City Council, official or employee of the City of Raleigh to bid for or to purchase or to contract to purchase from the City of Raleigh any real estate, equipment, materials, or supplies of any nature or kind whatsoever, either directly or indirectly, at either public or private sale, either singly, or through or jointly with any other person.

Further, the City of Raleigh shall reserve the right to cancel the work

described herein prior to issuance and acceptance of any contractual agreement/purchase order by the recommended Firm even if the awarding authority for each entity has formally accepted a recommendation.

- Preliminary Engineering Services;
- Wetland, Stream, and buffer delineation & permitting;
- NPDES permitting for plant expansion
- Geotechnical Evaluation;
- Subsurface Utility Exploration;
- Design and permitting;
- Traffic Control Plan;
- Easement Plat preparation and recordation;
- Bid Phase Services;
- Select Construction Administration Services and inspection;
- As-Built survey and plans.

4.1 Little Creek RRF Expansion

The East Raleigh Wastewater Conveyance Study identified the need for additional treatment capacity in the eastern portion of the service area. The subsequent East Raleigh Regional Study (July 2024) provided expansion alternatives as well as potential future discharge locations to allow for the requested 4.99 MGD treatment capacity at the Little Creek RRF. Raleigh Water is currently conducting modeling efforts to acquire speculative limits for the proposed plant expansion. State approval is anticipated in early 2027, after which the full plant expansion design will move forward.

A preliminary engineering report (PER) will be completed to evaluate interim expansion upgrade that can be completed utilizing Equalization Basin No. 1 that is being retrofitted as part of the LCRRF Rehabilitation and Replacement Contract 2 project as an additional biological treatment basin as well as other system upgrades needed to support the interim upgrade. The PER should also evaluate full expansion alternatives up to 4.99 MGD and how the interim upgrades will be coordinated with full expansion up to 4.99 MGD. Intensification technologies, including MBR, should be considered for the full 4.99 MGD expansion. Preliminary design of recommended upgrades will be

completed that are sufficient design level to assist with identifying potential conflicts for the expansion and the LCRRF Rehabilitation and Replacement project. There is interest in expediting completion of the PER / preliminary design so that potential conflicts and/or potential re-rating opportunities identified can be addressed efficiently.
