1.0 PURPOSE AND BACKGROUND

The purpose of this Invitation for Bid (IFB) is to establish a contractual agreement for the procurement and timely delivery of medications, medical supplies, and diagnostic tests for Cumberland County Animal Services. These items are essential to support the daily medical care, treatment, and welfare of animals housed in the shelter, including routine preventive care, urgent medical interventions, and ongoing management of illness or injury. The awarded contract will ensure reliable access to high-quality, veterinary-approved products that meet all applicable state and federal regulations. This IFB seeks competitive, cost-effective pricing and consistent supply availability to support shelter operations throughout the contract period.

Animal Services provides intake, care, and medical services for stray, surrendered, and impounded animals within the jurisdiction. On average, the shelter cares for animals with a wide range of medical needs, including vaccinations, parasite prevention, treatment of infectious diseases, wound care, and diagnostic evaluation. To maintain a humane and legally compliant standard of care, the shelter requires a dependable supply of veterinary pharmaceuticals, medical consumables, and diagnostic testing materials.

The County is seeking to award multiple vendors, in order to ensure availability. The County does not guarantee any minimum amount of purchase.
